### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: prior art does not teach or suggest in combination of the combined limitations of

a method for transmission of information in a communication system, the method comprising: providing, in information to be transmitted, identification information and an information status flag having a certain value indicating whether the information to be transmitted is NEW information or CONTINUE information; waiting to receive an interrupt signal from a scheduling algorithm resulting from the information being applied to the scheduling algorithm; and transmitting the information from a transmitter upon reception of the interrupt signal from the scheduling algorithm responsive to a type of the interrupt signal thus allowing transmissions to occur in an asynchronous manner (emphasis added) as recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
